COLOUR MULTIFUNCTIONALS
FOR A3 FORMAT

THE FLEXIBLE
COLOUR EXPERTS.

 **KYOCERA**
Document Solutions

THE PERFECT FIT FOR YOUR TEAM.

If this TASKalfa device was applying for a position in your company, it would describe itself as a reliable team player that gets you results – the highest quality colour results. It would then go on to talk about its expertise in flexibility and reliability, as well as its talent for keeping an eye on your budget. And it should get the job.

A COLOURFUL TEAM PLAYER WITH EXCEPTIONAL QUALITIES

Designed with small departments in mind, these TASKalfa colour multifunctionals, with impressive time to first copy speeds, are flexible, high-output devices that are focussed on brilliant colour performance. Various paper sizes and a capacity of up to 7,150 sheets are supported, as well as a variety of paper feeders, which give you the easy option of printing bigger jobs, quickly and continuously.

If that doesn't impress you, then the outstanding image quality achieved thanks to advanced colour and toner technology definitely will. With a standard print resolution of 1,200 x 1,200 dpi, 2 bit depth (equivalent of 4,800 x 1,200 dpi), your printouts will amaze with their sharpness, increased vividness and wide range of colours.

Your environmental footprint is as important to us as it is to you and we have developed energy-efficient technology to minimise it. A drastically reduced warm-up time results in less energy consumption and our new, thinner toner layer leads to less toner consumption.

Finally, you can rely on these team players being there for you when you need them most. We're proud of the minimal downtime achieved by our unique long-life components that offer durability and reliability in one. Add to this less waste and longer print runs and you'll ask yourself how you ever managed without them.

EXCEPTIONAL USABILITY, GREATER PRODUCTIVITY.

The new TASKalfas with high media flexibility deliver, before you even know it, oversized printouts for a borderless A3 result. Plus advanced scanning options allow you to edit, share and search through all your newly digitised files, saving you and your department valuable time and resources.

PRODUCT HIGHLIGHT

A large, user-friendly, colour touch panel with intuitive controls and fewer buttons offers easy and quick access to all print, copy, scan and fax functions and is great for employees who are untrained in using the device.

- > CUSTOMISABLE HOME MENU SCREEN.
- > USER-FRIENDLY DESIGN.
- > TILTABLE SCREEN.

A COLOUR QUALITY THAT WILL ASTOUND YOU.

Thanks to the innovative toner technology, our high-performing TASKalfas definitely don't disappoint when it comes to the final results. Along with impressive vividness and gradation, the high colour consistency and even light reflection of printouts has opened up the door to a range of in-house production possibilities.

And when you thought more wasn't possible, you can add a Fiery controller to the TASKalfa 3252ci series to increase productivity and a professional ICC-based colour management option that'll work with the largest of data sizes to produce the most precise printouts.

ECONOMY

- > You'll get at least 200,000 prints from our reliable OPC drums.
- > High reliability means less downtime and increased savings.

ENVIRONMENT

- > Uses as little energy as possible.
- > Energy is only used when needed.
- > Renowned long-life components save resources.

USABILITY

- > User-friendly, customisable home screen with simple and intuitive menu.
- > Enhanced functionality and usability thanks to improved driver.
- > Extended mobile device support: Mopria, Airprint, NFC, Wi-Fi Direct.

SECURE INFORMATION, WORKFLOW INTEGRATION.

AUTHORISED USERS ONLY

Data falling into the wrong hands poses a number of security risks, but not with the new HDD and SSD standard encryption for the KYOCERA TASKalfa series. KYOCERA's optional Data Security Kit minimises this risk even further, by removing all

temporarily-stored data from the hard disk once printing, copying or scanning is complete. Finally, optional card authentication functions should remove any concerns you might still have about unauthorised data access.

WORK THE WAY YOU WANT IT

Business applications such as Document Management Systems or Enterprise Resource Planning (ERP) are a fundamental part of most modern businesses, and KYOCERA has developed its own open software development platform, HyPAS™, to allow you to

integrate your TASKalfa device into your existing business workflow. It's easy to set up from your device's control panel and once running, will stop you being distracted from more important duties.

MORE MFP THAN YOU CAN IMAGINE.

ADDITIONAL PAPER HANDLING FOR ALL YOUR REQUIREMENTS

If you're looking for device flexibility to match your individual needs, then take your original TASKalfa MFP and add a range of paper-handling options such as document processors and finishers with optional booklet unit. Now connect additional

paper trays with a paper capacity of up to 7,150 sheets for up to six different media types and the new TASKalfa devices will let you print to your heart's content.

REVERSING AUTOMATIC DOCUMENT PROCESSOR DP-7120
with 50-sheet standard capacity.

DOCUMENT PROCESSOR DP-7100
One-way document processor that automatically reverses double-sided documents.

7 BINS MAILBOX SORTER MT-730
Ideal for large departments, separates different users' output into 7 trays.

4000-SHEET FINISHER DF-7110
